

# Tower Silos

*Good Quality Feed*

*Less Labor to Fill*

*No Spoilage*

*Eight Tower Silos: One Harvestore  
Two New Poured Concrete - Five Concrete Stave*

**City View Dairy in Marshfield, Wisconsin  
Works 430 Acres, Milks 190 Cows, and Raises  
Youngstock and Steers for Beef.**

“This farm has been in our family for over 100 years and is now being run by third and fourth generation family members. Over the years we have tried other feed storage methods such as ag bags and stacks with tires. We did not care for them very much because the feed was vulnerable to being destroyed by small wildlife. With the tower silos, we have never had wildlife cause moldy feed. Other than baled hay, we now use tower silos for all of our feed storage. We like the quality of feed that comes out of them - it is really good and we don't have feed spoilage. It only takes two people to fill them, which helps in keeping a lower number of employees and saves money.”

*Bruce & Kristine Seehafer - Third Generation Owners  
Ben Seehafer - Son and Fourth Generation*
