

Advantages All the Way Around

“We used bags for a year or two as we were growing but decided to go with upright silos. Tower silos provide us with many advantages, such as: high quality feed, maximum use of all our feed, no feed loss, good herd health and breeding and especially, time savings! We are a two man operation, therefore time is of the essence. There is a time savings in storing the feed, getting at the feed, even in the extreme cold and the time saved with having a healthy herd.”

- Jim and Jon Luckow, Brothers

Luckow Farms LLC

Second generation farm located
in Manitowoc, Wisconsin
milks 200 cows, farms 700 acres
and has six tower silos.
