

The Ease of Feed Storage

“Throughout the years, we have used tower silos for feed storage, along with some ag bags. There is a peace of mind knowing your feed is stored in a stable structure compared to the concern about bags being ruined by weather, rodents or machinery. With tower silos we also appreciate the ease of putting the feed away. With alfalfa, we just open up the silo, put the feed in, close it up and we’re done.”

- Holsinger Family, Three Generation Farm

Holsinger Farms LLC located
in Waynesboro, Virginia
milks 200 cows, farms 1200 acres
and has six tower silos.
