

⚠ CAUTION

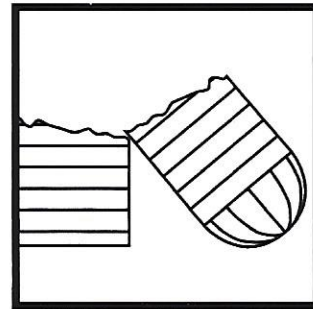

SLIP/FALL HAZARD

Ladder rungs can be slippery and debris covered.

Use Caution when climbing.

Inspect before climbing.

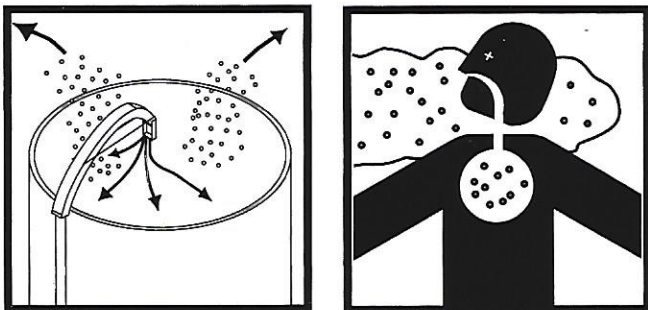

⚠ CAUTION

STRUCTURE COLLAPSE HAZARD

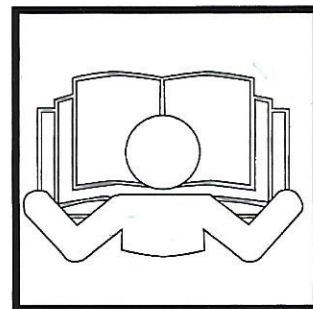

Along with other factors, improper moisture content is a major cause of silo structure failure.

⚠ CAUTION

HAZARDOUS GASES

Ventilate newly filled and partially filled silo with forage blower 30 minutes before entry. Continue ventilation upon entry.

READ OPERATOR MANUAL BEFORE USING THIS SILO

Replacement silo operator's manuals can be provided by your silo supplier or by contacting the International Silo Association: www.silo.org
