ISA Zur Craine Award

Honoring exceptional service to the silo and silage equipment industry

Established in 1959, the International Silo Association (ISA) Zur Craine Award recognizes individuals who have provided outstanding service to the silo and silage equipment industry.

The award honors the memory of Zur Craine, whose 43 years of active and devoted participation in the Association through the George Whitesides Company of Louisville, Kentucky left a lasting legacy. Past recipients represent the backbone of the silo industry. Their contributions have helped manufacturers of silos and related equipment advance livestock agriculture throughout North America.

Award nominations are considered by the ISA Board of Directors, which selects recipients by secret ballot. Honorees are recognized during the Association's annual meetings.
